a chef's ideal platform

Using reactive glazes that change in color and intensity depending on their application, Revolution glazes are specially formulated to enhance all the nuances experienced in their execution. Applied by hand using a revolving motion, the path the brush travels across each piece is evident in the fired result. The glazed surface of each piece in the range is as different and unique as the artisan that created it. This provides an ideal platform for each chef to showcase their art, no matter what the cuisine style. Revolution's four colors, Sandstone, Granite, Bluestone and Jade, blend beautifully together and amplify the quality and skill that goes into every chef's creation.

heightened senses, amplified presentation

Emulating a concrete look, Urban's "smoke" is a new collection of tableware that takes its inspiration from the aesthetics associated with the act of cooking. The subtle and nuanced tones of grey contrast with the darker reactive elements to mirror the effects of browning and searing, creating a connection between the food and the plate.

unique, natural, extraordinary

The Potter's Collection by Robert Gordon is perfect for single serve with its exciting assortment of embossed plates, bowls and accessories in three unique colors: Pier, Shell and Storm. Each color has a distinct finish that is stunning on its own or can be beautifully mixed to create an unforgettable tabletop. The reactive glaze on Pier & Storm ensures that no two pieces of this Australian-designed porcelain will be exactly alike, and Pier's neutral taupe and Storm's deep blue color intensity varies from piece to piece. Shell features a satin, creamy-white finish with tiny flecks of dark brown throughout, making it the perfect canvas for your food presentation.

buffet solutions

evolving your displays & service techniques to meet safer standards

It's obvious that the buffet has the most physical touch points, so that's all the more reason to make your guests feel safe. With our breath guards & carts from Mogogo, covered pots from D.W. Haber and Gastronorm trays & covers by Creations, operators can create an inviting, yet sanitary environment for their patrons. And since you'll be switching out your serving utensils more frequently, it's important to stock up on some tools from our vast portfolio of reusable serving spoons, forks and spatulas. Plus don't forget about Genware's flatware caddies for ease of storage or transport. Foodservice as we know it is evolving, but our buffet and serving solutions are here to help!

reducing the spread of germs

Pouring a cup of coffee or juice just got easier with D.W. Haber's Touchless Faucets. Simply press a cup against the dispenser to activate the flow and pull away once filled. The Touchless Plus is hands and drip-free, and its wide body targets the side of the glass and not the rim, which ultimately reduces the spread of germs. Made of 18/10 stainless steel, the spouts are resistant to rust. The Touchless Faucet fits any D.W. Haber and WNK urn or juicer, while the Touchless Plus fits all except Teak and Fusion.
